- 1) Where each type of material will be taken (i.e. cardboard paper, mixed office paper).
Several alternative market locations may be given.
- 2) How the recyclable materials will be separated from solid waste (i.e., roll off containers will be provided and a separate pick-up provided, separate small containers for recyclables will be provided and collected separately, waste will be sorted at [name of facility] and then recycled) Incineration is NOT acceptable as a destination for recyclable material.
- 3) All permit holders must provide the following data to the Board of Health quarterly as follows: Q1 due April 15, Q2 due July 15, Q3 due October 15, and Q4 due January 15.
 - Tonnage of solid waste picked-up collected in Barre each month .
 - Tonnage of each category of recyclable materials by month.
- 4) Remedy of violations by customer

For the purposes of this initial phase, the (Town/City) will provide a letter to the hauler for use with their customers.
